STARTUP® is an excellent option for producers who are looking to protect their crop with a high quality glyphosate at a reasonable price. The highly concentrated formulation requires fewer litres per acre. **STARTUP** is the only glyphosate in Western Canada available in a 667 L tote, which will cover 1,000 acres at a rate of 670 ml/ac.

Product Benefits:

- Many tank mix options for your pre-seed applications
- High quality glyphosate at a reasonable price
- Concentrated formulation equals less litres/acre needed
