CALIBER® 625 is a post-emergent herbicide which controls broadleaf weeds in legumes and grasses, including underseeded new plantings, established stands and new seedings of alfalfa and clover.

Product Benefits:

- Unique emulsification system
- Highly refined acid formulation
- Broad spectrum weed control
- Better tank mix compatibility
- Low use rate
- Wide window of application
- Quicker weed kill of over 90 broadleaf weeds
- Easy to use
