

**Green With Envy**

[www.lovelandproducts.ca](http://www.lovelandproducts.ca)

**GREEN WITH ENVY®** is a 16-8-3 plus EDTA chelated micros (Cu, Fe, Zn & Mn) that strengthens the crop's ability to overcome stress caused by weather, herbicides, insects or diseases by providing needed nutrition at stressful times to maintain plant metabolism.

**Product Benefits:**

- Convenient liquid product makes an easy and simple tank-mix partner
- Less stress and more consistent weed control from herbicide applications
- Promotes growth and yield
