MCPA AMINE 600 is a cost-effective herbicide that controls a wide range of broadleaf weeds in wheat, barley, rye, oats, flax (excluding low linoleic acid varieties), winter wheat, fall rye, grass pastures (established), turf (including fairways and lawns), corn (field and sweet), peas (field & canning) except Nova Scotia. Do not treat crops underseeded to legumes. **MCPA AMINE 600** is an effective broadleaf herbicide for managing herbicide resistant weeds.

Product Benefits:

- Tank mix flexibility
- Broad spectrum activity on most broadleaf weeds
- Use to manage Group 4 herbicide
- Wide application window
